Exploratory Data Analysis: Golub Case Study

Chapter 1, Lab 3

OpenIntro Biostatistics

This lab presents the details of how to conduct the analysis discussed in Section 1.7.2 of *OpenIntro Biostatistics*. A reader interested in applied data analysis may benefit from working through this lab and reviewing the solutions instead of reading the section in the text. For background information on DNA microarrays, refer to *OpenIntro Biostatistics*, pp. 50-52.
